

Dr David Taylor   Dr Ian Tooley   Dr Sarah Milner   Dr Annette Horsfield

# RIPLLEY MEDICAL CENTRE

Derby Road, Ripley, Derbyshire, DE53HR

## **PRACTICE PROFILE**

We are a medium sized practice situated in a market town in semi-rural Derbyshire.

We have approx 5,200 patients in Ripley and the surrounding villages, the population being mostly working class with no significant areas of deprivation. We have high prevalence levels of most chronic diseases, so there is plenty of 'proper' medicine to be seen!

The practice is fully computerised on TPP SystemOne, a Smartcard is essential and training is available if required.

There are 5 GPs at the practice:

Dr David Taylor is the senior partner and only full-time GP, he has interests in diabetes and minor surgery.

Dr Ian Tooley has interests in dermatology and mental health.

Dr Annette Horsfield has interests in diabetes and joint injections.

Dr Julie Osborne is usually only in on Fridays and has an interest in women's health.

Dr Sarah Milner has interests in women's health, respiratory disease and co-ordinates the teaching / training placements.

Our nursing team consists of a Nurse Practitioner, 2 Practice Nurses and a Health Care Assistant.

We have an attached team of staff including district nurses, health visitor, nursery nurse, midwife and counsellor. Addaction and Primary Care Mental Health Workers also see our patients in the surgery, and an Audiology Service is also run from the premises currently.

Sharon Draper is the practice manager, who runs a busy admin team working both in the offices and in reception with the help of our deputy manager.

Further general information about the practice can be found on our website. Please feel free to contact either Sharon Draper or Dr Milner for further information.
